Who We Are

Claritas Rx is a digital health venture focused on patient-level data integration and analytics. We leverage a proprietary cloud-based platform and deep manufacturer expertise to generate valuable insights from specialty channels and other market data. Our product platform and support services yield clear insights into commercial strategies and opportunities benefiting manufacturers, distribution partners and patients.

The Position

Claritas Rx has a nimble Silicon Valley start-up culture. We are looking to build a strong customer team of domain experts that can help scale a premier channel management solution.

At Claritas Rx, Senior Solutions Analysts work directly within our solutions teams to design, build, deploy, and service our product to meet our customers' business needs. Senior Solutions Analysts perform a range of activities that span traditional product and service roles, including product management, system implementation, data analytics, and customer management. Our Senior Solutions Analysts are active advisors to both our customers and our product team: they are data curious, enjoy analytical problem solving, are learning-oriented and enjoy coaching and collaborating with other team members to solve a variety of business problems.

Key Accountabilities

- Collaborate internally and with customers from across several functional areas to understand key functional needs and translate these needs into creation of new product features and enhancements to existing product features
- Manage roll-out of new product features to customers, including training relevant users and communicating updates with management
- Ensure data quality in customer deliverables via rigorous quality review prior to release
- Play a role in new customer implementations
- Identify novel opportunities to use data to solve customer business challenges
- Design and build the UI/UX customer-facing layer of our product, including various role interfaces and the creation of reports and dashboards as needed
- Work with the Product team to inform portfolio of product features across customers, to leverage synergies and maximize scalability of product
- Collaborate with our Engineering team to design and implement new product features
- Design and prototype cutting edge analytics solutions for our platform
- Coach junior team members
- Contribute to Claritas's growth in other areas, through participation and responsibility with internal company building projects

Who You Are

Required:

- 3+ years' experience in a commercial capacity at a pharma/biotech manufacturer; a health tech start up; or a healthcare consulting role
- Bachelor's degree in Bioengineering, Data Science or a related field with a focus on biotechnology analysis

- A creative approach to analytical problem solving and a relentless passion for quality
- Track record of working in teams and managing customer-focused projects
- Excellent written and oral communication
- Excellent quantitative analysis skills and expert-level proficiency with Microsoft Excel, and PowerPoint

Preferred:
- Familiarity with healthcare data sources (transactional, clinical, behavioral)
- Expertise in commercial/clinical analytics
- Experience using common biotech data science software (R, Python, SAS, VBA) and stats packages
- Academic training in public health, operations research, biostatistics, informatics, engineering, natural sciences or computer science, is also a plus

Join Us

We are seeking to add new expertise and perspective to our strong team of experienced professionals. We aspire to a culture of accelerated professional development through: shared learning and collaboration; a respectful and fun work environment; and employee empowerment through the effective use of technology and tools.

In addition to our great environment, we offer a competitive salary and benefits package and the opportunity to make a significant impact on a first-in-industry digital health solution. Please send a cover letter along with your resume when applying to the position of interest. We are an Equal Opportunity Employer.
